AcuPoint Analysis
BREAST MASTITIS
(DESCRIPTIONS)

Point	Description
C17	In men, on the mid-line of the chest between the two nipples. In women, on the mid-line of the chest between the fourth and fifth ribs.
GB21	On the top of the shoulder, one to two inches from the side of the neck.
GB41	On the top of the foot, in the valley between the smallest and fourth toes, midway between the separation between the toes and where the foot joins the leg.
LI04	On the back of the hand between the thumb and index finger metacarpal bones. Find the spot midway on the bone that connects the index finger to the wrist. Sometimes this point is easy to find by squeezing two fingers together to form a small mound and marking an imaginary point at the peak of that mound. Then probe inward toward the main body of the hand, right on the bone.
SI01	Just behind the inside corner of the nail of the smallest finger (direction toward the other fingers).
SP12	This point is 3.5 thumbs width from the stomach midline in the middle of the crease where the leg joins the trunk of the body. This is level with the pubis bone.
ST16	Directly above the breast bone tissue in line with the nipples, between the third and fourth ribs.
ST18	In the intercostal space, one rib below the nipple.
