## TRIGEMINAL NEURALGIA\*

(DESCRIPTIONS)

Point	Description
<b>C24</b>	In the depression just below the lower lip.
<b>GB01</b>	This point is not as far back as the large hollow of the temple. It is 1/2 cun from the bony ridge at the corner of the eye.
<b>GB14</b>	1 cun above the middle of the eyebrow, in the depression on the superciliary arch.
<b>GB20</b>	This point is right under and against the base of the skull, in the two small muscular grooves at the back of the neck, two to three inches apart depending on the size of the head.
<b>GB41</b>	On the top of the foot, in the valley between the smallest and fourth toes, midway between the separation between the toes and where the foot joins the leg.
<b>LI04</b>	On the back of the hand between the thumb and index finger metacarpal bones. Find the spot midway on the bone that connects the index finger to the wrist. Sometimes this point is easy to find by squeezing two fingers together to form a small mound and marking an imaginary point at the peak of that mound. Then probe inward toward the main body of the hand, right on the bone.
<b>LI11</b>	On the extreme end of the outer crease of the elbow. Bend your arm tightly and place your Acu-Ki on the end of the crease. Keep your massager in place while opening the arm and stimulate the point on your relaxed arm downward toward your forearm.
<b>LI20</b>	At the flare of the outer nostrils where they join the cheek, on the cheek, rather than on the nostrils.
<b>LU07</b>	On thumb edge of the wrist, 1.5 Cun toward elbow from wrist crease nearest hand. A difficult point to find, but made easier by linking the hands (in picture), find point beneath index finger lying along top of wrist, deep in a small hollow.
<b>LV03</b>	Two cun above the separation between the biggest and second toes, on the top side of the foot.
<b>ST02</b>	One-half thumb width below the center of the lower eye ridge in an indentation of the cheek.
<b>ST06</b>	Between the upper and lower jaw, on the muscle that bulges when the back teeth are clenched.
<b>ST36</b>	The width of one hand (3 Cun) below the bottom of the kneecap, and the width of one thumb (1 Cun) toward the outside of the leg (direction of the small toe.) Found in the trough or valley where the two most prominent bones of the calf come together.
<b>UB01</b>	At the inner corner of the eye, very near and slightly above the tear duct; massage between the notch you feel above the eye in the skull and the tear duct.
<b>UB02</b>	At the inner edge of the eyebrow.
<b>UB07</b>	5 cun into the hairline, 1.5 cun from the center-line of the head. Easily found and stimulated with the Stressaway massager just by rolling in this area until you find a sore spot.
